

[Luis M. Alvarado, DDS MSD, SPEAKER]

After several busy year of Prosthodontics training combined with clinical practice and an assistant professorship, Dr. Luis Alvarado has settled in Shreveport, Louisiana, is new home.

Dr. Alvarado received his dental degree (DDS) at the Universidad Francisco Marroquin in Guatemala, his home country and developed an interest in advanced education while working as a General Dentist in private practice. He moved to the US to seek further training and entered a program in Advanced Education in General Dentistry at the University of Connecticut, Health Center. It was here where he discovered his passion for Prosthodontics and eventually landed in Louisianan where he completed his Master of Science in Dentistry and Prosthodontics degree at the Louisiana State University in New Orleans.

Dr. Alvarado and his wife decided to move to Shreveport to be close to family, where he is serving the North Louisiana community as a Prosthodontist in the private sector. He is passionate about giving back to his communities in Guatemala and the US - and has provided dental services for patients in underserved communities on several mission trips with international care organizations and volunteered with Mission of Mercy in New Orleans.

When Dr. Alvarado is not practicing dentistry or creating smiles in the lab, he enjoys running, snowboarding, bicycling and traveling with this wife.
