COURSE SYNOPSIS

Dr. Edward E Schlissel, Speaker

This half-day course offers a comprehensive exploration of digital workflows in restorative dentistry, focusing on single tooth replacement and anterior temporization. Attendees will learn how to streamline clinical procedures, improve communication with patients, and enhance esthetic and functional outcomes. The session emphasizes practical applications, evidence-based techniques, and strategies for achieving predictable results in restorative cases. Whether you're refining your current approach or expanding your treatment offerings, this course provides valuable insights to elevate your practice.
